

## **Acceleration zones for the production of renewable energy (EnR).**

Presentation of the mapping portal

### **NOTICE OF PUBLIC CONSULTATION**

Pursuant to the Law of 10 March 2023 regarding the acceleration of the production of renewable energy, the municipality of LA DOREE has defined its project for zones to accelerate the production of renewable energy, which is based on the following main points:

- Working with local elected representatives to plan the deployment of renewable energies in local areas
- Simplifying authorisation procedures for renewable energy projects
- Sharing the value of renewable energy projects with the host regions.

By resolution no. 03112023 of the Municipal Council meeting for La Dorée dated 29 November 2023, council decided in principle to organise a consultation with the aim of providing information on the project and gathering comments and proposals from the public on the project.

### **DURATION OF THE PUBLIC CONSULTATION**

From 4 to 19 January 2024 at 1pm.

### **TERMS AND CONDITIONS OF PUBLIC CONSULTATION**

The public will be informed and given the opportunity to submit comments and proposals through a variety of channels:

- Posting the document presented on the commune's website. Public opinions, comments and proposals may be sent by e-mail to [mairiedoree@wanadoo.fr](mailto:mairiedoree@wanadoo.fr) or by post to 15 place de la Mairie - 53190 LA DOREE.
- Publication in the municipal bulletin
- The consultation file will be available at the Town Hall reception desk (during public opening hours), together with a register of comments.

Consult the consultation report.
